## EDUCATION

### George Mason University

Fairfax, VA

*Bachelor of Science in Computer Science | GPA: 3.94/4.0*

*Expected graduation: May 2027*

\* **Relevant Coursework:** Data Structures and Algorithms, Object Oriented Programming, Deep Learning, Artificial Intelligence, Linear Algebra, Discrete Mathematics, Calculus I,II,III

## SKILLS

**Languages:** **Proficient:** Java(1yr), Python(2yrs) **Intermediate:** JavaScript(1yr) **Beginner:** C( $\leq 1$ yr) SQL( $\leq 1$ yr)

**Frameworks:** React, Node.js, Next.js, Vite, Flask, Stripe, Material-UI, Firebase, Clerk, Streamlit, Tailwind CSS

**Developer Tools:** Git, OpenAI, Langchain, Gemini, Amazon Bedrock, Hugging Face, Google Colab, Postman

## EXPERIENCE

### Mason Experimental Geometry Lab (MEGL) Outreach Intern

January 2024 – Present

*Mathematics Department*

*Fairfax, VA*

- \* Orchestrate educational initiatives for 700+ K-8 students, developing 5 new STEM activities and refining 10 existing ones, resulting in a 25% increase in student engagement and comprehension of geometric concepts
- \* Developed and implemented "Bubbles" activity, effectively explaining complex volume and surface area concepts to 100+ students, resulting in a 30% increase in quiz scores and 90% positive feedback from participants

### Software Engineering Fellow

July 2024 – Aug 2024

*Headstarter*

*Remote*

- \* Engineered 5 AI-powered applications and APIs using Nextjs, React, OpenAI, Pinecone, and Stripe API, achieving 98% user satisfaction rate and 50+ active users within the first month of deployment
- \* Led a team of 3 engineering fellows in developing and deploying 5 projects using MVC design patterns, leading to a 30% reduction in development time and a 40% decrease in bug reports due to improved code maintainability

### Undergraduate Teaching Assistant

January 2024 – Present

*Computer Science Department*

*Fairfax, VA*

- \* Elevated learning experience for 100+ students by developing supplementary materials, leading review sessions, and offering personalized support, resulting in a 15% improvement in average class performance
- \* Resolve 50+ student queries weekly via Piazza and email with an average response time of 2 hours, maintaining a 95% satisfaction rate and contributing to a 20% reduction in office hour wait times

## CAPSTONE PROJECTS

### Portraitlet | React, Firebase, Tailwind CSS, Vite, Stripe, Fal AI, JZIP

Jan. 2025 – Feb. 2025

- \* Architected and deployed a full-stack AI portrait generation platform using React, Firebase, and Stripe, implementing a credit-based system with real-time transaction processing and secure user authentication
- \* Engineered a portrait generation pipeline with custom styling options, integrating AI APIs and cloud storage for seamless delivery of high-quality professional portraits while maintaining responsive performance across devices

### EcoFlow | React, Firebase, Tailwind CSS, Firebase, Google Text-to-Speech, Gemini AI, Git

Jan. 2025 – Feb. 2025

- \* Implemented a secure cloud infrastructure with Firebase Storage and Firestore for real-time data sync, featuring role-based access, automated speech-to-text, and efficient tournament flow management with instant updates
- \* Engineered a debate management platform with flow collaboration, voice-based RFD processing, and AI-powered feedback via Gemini API, reducing tournament preparation time by 50% and increasing user engagement by 30%

### StockSmart AI | React, Firebase, Google Gemini AI, Tailwind CSS

Jan. 2025 – Jan. 2025

- \* Developed an inventory and recipe management system using React and Firebase, with real-time stock monitoring and AI recipe recommendations, reducing food waste by 20% and increasing user recipe engagement by 60%
- \* Built a scalable, secure, and user-friendly platform with advanced filtering, nutritional analysis, and seamless integration with smart kitchen appliances, ensuring optimized inventory control and enhanced meal planning

## ACHIEVEMENTS AND CERTIFICATES

- |                                                     |                                         |
|-----------------------------------------------------|-----------------------------------------|
| * Fall 2023/Spring 2024/ Fall 2024 Dean's List      | * CodePath Intermediate Cybersecurity   |
| * 2nd place 2023 Patriot Hacks (Best Startup Track) | * CodePath Intermediate Web Development |
| * AmazonNext x CodePath Summer 2024 Scholar         | * Google AI Essentials                  |
| * CodePath Intermediate Technical Interview Prep    | * AWS x Audacity AI and ML Scholar      |

## EXTRACURRICULARS

- |                                                    |                                     |
|----------------------------------------------------|-------------------------------------|
| * National Society for Black Engineers             | * Collegiate Black Men (Ambassador) |
| * George Mason Debate Travel team (Junior Varsity) | * ColorStack                        |
| * Mason Competitive Cyber                          | * African Student Association       |
| * Mason Autonomy and Robotic Center                | * Black Male Student Initiative     |
