EXPERIENCE

Mason Experimental Geometry Lab (MEGL) Outreach Intern

January 2024 – Present

Mathematics Department

Fairfax, VA

- * Spearhead educational initiatives for 300+ K-8 students, developing 5 new STEM activities and refining 10 existing ones, resulting in a 25% increase in student engagement and comprehension of geometric concepts
- * Developed and implemented "Bubbles" activity, effectively explaining complex volume and surface area concepts to 100+ students, resulting in a 30% increase in quiz scores and 90% positive feedback from participants

Software Engineering Fellow

July 2024 – Aug 2024

Headstarter

Remote

- * Engineered 5 AI-powered applications and APIs using Nextjs, React, OpenAI, Pinecone, and Stripe API, achieving 98% user satisfaction rate and 50+ active users within the first month of deployment
- * Led a team of 3 engineering fellows in developing and deploying 5 projects using MVC design patterns, leading to a 30% reduction in development time and improved code maintainability
- * Coached by Amazon, Bloomberg, and Capital One engineers on Agile, CI/CD, Git and microservice patterns

Undergraduate Teaching Assistant

January 2024 – Present

Computer Science Department

Fairfax, VA

- * Enhancing learning experience for 100+ students by developing supplementary materials, leading review sessions, and offering personalized support, resulting in a 15% improvement in average class performance
- * Resolve 50+ student queries weekly via Piazza and email with an average response time of 2 hours, maintaining a 95% satisfaction rate and contributing to a 20% reduction in office hour wait times

CAPSTONE PROJECTS

AI Chat bot | Next.js, React, OpenAI, EC2, Amazon Bedrock, Caddy, Pinecone

Aug. 2024 – Aug. 2024

- * Developed an AI-powered customer support chatbot using Next.js and the Anthropic Claude 3 Haiku API, implementing dynamic, intelligent responses with advanced Generative AI models
- * Deployed the chatbot to AWS EC2 servers, ensuring scalability and reliability in a cloud environment
- * Leveraged AWS Bedrock API for LLM responses, enhancing the chatbot's ability to handle complex queries

AI Flashcards | Next.js, React, Firebase, OpenAI, Clerk, Stripe

Aug. 2024 – Aug. 2024

- * Developed a SaaS platform using Next.js and React that integrates with OpenAI to generate AI-powered flashcards, enhancing users' study routines through dynamically created content
- * Implemented secure user authentication and management with Clerk and leveraged Firebase Firestore for real-time data storage, ensuring seamless access to personalized flashcard collections
- * Integrated Stripe for robust payment processing, enabling subscription management and monetization while maintaining a responsive, modern UI through Material-UI

ACHIEVEMENTS AND CERTIFICATES
